REP 2008

After the sensational year we had in 2007, what can we expect from the RoadRunners in the REP this year?

First and foremost we can not rest on our laurels from this past year. We must continue to improve and move forward. With that said I will tell you all, as far as I am concerned the sky is the limit. We will only be held back by OUR weaknesses and OUR commitment, or lack of.

As we stand right now we have 8-10 members that will be making applications within the first quarter for their Level IV's. Also we have several that are positioned to advance to Level III, and I am sure that the ones that have yet to sign up for the REP or joined Chapter G2's REP will follow suit shortly. That in it's self is an amazing feat, and it will only get better from there.

We have planned Safety Socials monthly this year instead of the bi-monthly's that we were doing in '07. With that I will add that we will be calling on Frank a lot more this year to conduct the Safety Socials (and other things), and we very well may be asking others in the Chapter to assist also. If you are asked to assist, don't fret, just do the normal fantastic jobs that you have in the past year and all will be fine.

We are planning some things this year other than the usual Parking Lot Practices (PLP) that we have done in the past. These will include some video sessions, some Rap sessions which will include some round table discussions about our concerns and shortcomings, and who knows after that. We will be looking for a suitable location for these indoor meetings, so if you know of some place that will fill the bill, feel free to get with us and we will see what we can do. After all like the newsletter and web page, this is YOUR REP, and we can not do anything without your involvement.

Above all else our goals for the year are, an accident free year, excessive group involvement, and that everyone in the Chapter will finish the year as healthy as they started and a better/safer rider to boot.

What more can we ask for?

Till next time Ride Safe, take care of yourself and each other.
