

G2 Roadrunner NEWS

GWRRA Region H "South Central Texas District Chapter G2 Greenville, TX October 2014***Established October 2001

CD's CORNER

From The CD:

Greetings Roadrunners. Well another month has gone buy and this year seems to be speeding up. Father time went back to his winter schedule on Sunday. How many of you actually got the extra hour sleep. I want to thank once again Tommy and Judy for being the ride coordinators and setting up such great destinations for our Chapter to go to. I also want to thank everyone who participated in all the events.

This month's gathering is at the Cotton Patch. Be sure to let me know what you think of the place so I can make a decision on whether to come back or look for someplace new. If you prefer the buffet Place let me know that too.

If you go to the GWRRA Website and go to the store they have some pretty good deals on rider clothing. Also look up about Reno Rendezvous. It is the newest big thing in motorcycle touring events! Geared toward the big touring bikes, this event is slated for next June 18-20, 2015 at the Grand Sierra Resort in beautiful Reno, Nevada! Complete with an indoor trade show, manufacturer demos, stunt shows, live entertainment, guest speakers, and much more! All this, coupled with some of the most scenic riding in the country, is sure to be an event you won't want to miss!

Thanks your support. Till next month ride safe.

From The Educator.

Continuing on from last month's newsletter, the next Rider course available is:

Advance Rider Course. This one-day course includes techniques used by riders who have a lot of experience. It is not about riding fast, but about riding better. Having more refined skills can help you improve your basic riding techniques and can also help you in an emergency. There is an interactive classroom segment that adds to the basics. There is more information about braking cornering, and emergency maneuvers. Riding exercises include quick stops, special cornering drills, and decreasing radius curves. You should be comfortable with the basics of riding at highway speeds before enrolling in the course.

<u>Ultimate Bike Bonding Course</u>. This 4-5 hour course is patterned after police motorcycle training courses and will help you handle your motorcycle. The UBBC does not have a formal classroom component. You use your own motorcycle in this course.

MSF Kevin Schwantz Rider course. This MSF KSRC takes place on a closed paved area much larger than the Basic Rider Course. It emphasizes visual awareness and handling your motorcycle at higher speeds, especially when braking and riding in curves. The course was developed in cooperation with world champion racer Kevin Schwantz who operates the Kevin Schwantz School, an advanced riding school conducted on racetracks around the world.

MSF also has Life Long Learning Resources available from the iTunes store. Search the store for the Motorcycle Foundation to find the Apps, iBook's and iTunes U courses.

Ride Safe

THINGS I BET YOU DIDN'T KNOW

You have burn't some of your dinner and it leaves a smoky smell in the kitchen----if you boil a cup of vinegar in 2 cups of water the smell should be gone in 15 minutes.

You have a bad sun burn on your back----to help to ease the pain rub vinegar on the sunburn---in a few minutes your skin will feel cooler.

You get stung by wasps---rub apple cider vinegar on the sting--the stinging will subside.

To help prolong the life of cut flowers add 2 tablespoons vinegar and a teaspoon sugar to the water.

You notice you have mice under your cabinet---shake baking soda around where you found them--they will stay away.

To remove the fragrance of bleach from your hands--pour lemon juice on them and wash, this removes the bleach smell.

To help prolong the life of milk--after you open it sprinkle a bit of salt in it.

To get rid of smelly shoes sprinkle some salt in them and let them set over night.

To remove oil based paint from your hands--rub them with olive oil then with soap and water.

How much of this did you know?
