Greetings from the Oklahoma District Rally! Closing ceremonies were just completed.

Barb and I would like to express our thanks to all the folks involved with putting on the rally. It was great. Even though a caterer didn't show up to serve lunch, the staff came up with a plan to get everyone fed with little fanfare. I'm sure there was a lot of behind-the-scenes action to get it done but the staff pulled it off without a hitch. Ponca City is a great place to have a rally. It's clean, easy to get around in and everyone we met seemed to be happy we were in the city. The staff had planned plenty of activities for the attendees to stay busy. In short, the Oklahoma district and Chapters did a terrific job for the last GWRRA rally in Oklahoma. Well done!

Texas had the most out-of-state attendees with about twenty people in attendance. Kansas was close behind. Unfortunately, Don Walker had to return home early since Karen (CD's of Chapter R) had unexpected surgery on her eye. Thankfully, Don made it back safely and Karen's surgery went well. She's now at home recovering.

Fortunately, I signed up to take a free motorcycle safety course conducted by the Oklahoma Highway Patrol. I was impressed by the professionalism of the course and the

officers conducting the course. They showed videos and discussed techniques for safer riding and then had on bike practice to reinforce the material. There were at least eight or ten officers on the range coaching and offering tips to improve skills. I believe all the troopers were motor officers with loads of experience. This is a great program offered by Oklahoma.

Multi-chapter meet and greet on November 12th 2022 at the Old Mexican Inn Restaurant & Cantina, 2407 W. 7th Avenue, Corsicana, Texas. Although all the details (departure times, locations, routes, etc.) are not firm yet, Barbara and I will be leading a ride there on November 12th. The current plan is to arrive around 10:30 and visit with many chapters in the northern part of the state including G2, R, M, P and T from Killeen until 1 or 2PM. Jose Soto (CD of Chapter T) came up with the idea for a multi-chapter meetup in Corsicana since it's central to all the chapters. I'll post staging points and times on Groupworks before the event as plans solidify.

Texas District Director News

Dan and Donna Rymarz, Texas District Directors

Happy Halloween!

So, we're almost 10 months into this year, and it was only three months ago where our motorcycle association GWRRA announced that they were closing. Since that time quite a bit has occurred. But the most important thing is that our chapters continue to operate just as they had before and are planning on doing so going forward. Most chapters have decided to go the Eagle Wings route, many of us have also joined Wing'd Riders, at least those of us who own Gold Wings. I do know that most of our chapters they have turned in their paperwork to become charter chapters and that paperwork was sent off at the end of September. I've not heard much since then from the Region Director or national leadership. I anticipate this will take a little bit of time just like the membership is taking about 30 days. As stated, the most important thing is that we continue to ride and get together as friends and as the weather continues to cooperate. Just a couple weeks ago Donna and I rode with our home chapter, The Rally Cats out of Grapevine TX, and went for a ride up into Oklahoma. We expected a small group maybe four or five bikes, but we're thrilled when we ended up having twelve. It was a beautiful day to ride and was surprisingly cool. It was only in the low 60s for most of this ride which was very comfortable. The destination was the Anchor N Restaurant. The food was delicious the portions generous, and the service was excellent. This had been my first ride in a couple months, and my first group ride for probably over a year.

As always there were lessons to be learned. The Rally Cats might be one of the first chapters to be majority Sena wireless headsets users. We have plenty of new motorcycles in the group, mostly the new Gold Wings, and putting a CB on that motorcycle costs in excess of \$2500. Donna and I have been using Bluetooth headsets for a few years and have enjoyed it, but we also had the benefit of a CB on my 2003 Goldwing. We recently upgraded to the 50 S from Sena, which now uses open mesh technology. In many ways it's like sitting around a table where everyone can be heard at the same time, so basic etiquette need to be exercised. This new technology though is likely the future of motorcycle communications. Unfortunately, CB radios are offered less and less on the new bikes which makes it a good time to relearn the old fashioned hand signals. At the very least share with your riding partners the few hand signals that are very important, like when you have to use a restroom, when you need gas, and warning your fellow riders of debris or obstructions on the road.

Hope to see you all on the roads soon, because before we know it, the holidays will be here and those free weekends will be filled with family events and obligations. I am currently praying for a mild winter with many riding opportunities. Make sure your heated gear is ready!

Be well friends,

Dan and Donna Rymarz

Rider Education Corner

Leo Smith, Jr.

As we value the importance of safety through education and practice, we are thrilled to pass on to ALL motorcyclists the announcement of a new venture by Lorrie Thomas (GWRRA's University Director) and Susan Huttman (GWRRA's Director of Rider Education) called **RPM**. Lorrie and Susan have worked hard and relentlessly to design and structure a SERVICE where education will not be left out of the loop of the motorcycling community. On a personal note, I can attest that education and training saves lives and should not be forgotten about with all the changes and uncertainties whirling around as new groups form or even riding by one's self. Below is a brief synopsis of Lorrie and Susan's plan. Keep in mind though, it is still business as usual until the end of this year so if any chapter needs training we will do the best we can to accommodate your needs. We are right around the corner from the busy holiday season and instructors also have schedules, so request early! Also, if any member needs their information updated in the current data base I can send it forward to be processed. At this time I have the capability to read/check only, no data entry.

INTRODUCTION TO RPM ACADEMY

We are pleased to announce our joint venture, **RPM Academy**, (Rider Safety, Personal Growth and Management Skills).

Our Vision: To offer sustained knowledge development and skill enhancement through quality adult learning opportunities on-bike and in the classroom.

Our Mission: To ensure the availability of proven classes and courses to benefit every motorcycling enthusiast and supporter regardless of their personal group affiliation.

Our Purpose: To advocate for all RPM Academy participants, instructors and trainers with passion and integrity.

RPM Academy has been granted sole and exclusive ownership and use of all GWRRA University and Rider Education Program content and have acquired copyright protection.

Beginning in January 2023, all offerings by RPM Academy will be provided in the US by certified Instructors and Trainers who meet defined qualifications and uphold certain standards.

Until the end of the calendar year, courses and classes will continue to be conducted under GWRRA Handbook directions and covered by the existing GWRRA insurance policy.

Database records will continue to be maintained through December 31st, 2022, using current guidelines. A revised version of the levels program to recognize individual achievements will be released on January 1st, 2023.

Concurrently an Academy reference manual will be made available providing specific procedural information for individuals, groups, instructors, and educational field representatives. Management and administration will be centralized for simplicity and continuity.

As an LLC, we will use any income to finance the cost associated with liability insurance and the delivery of exceptional educational content presented by qualified Instructors and Trainers.

RPM Academy has partnered with **Wing'd Rider** and have the full support of an organization with a genuine interest in the motorcycling culture, safe and enjoyable riding, and the value of life-long learning.

As we continue to build on our firm foundation, we appreciate your support and look forward to serving you in the future.

Lorrie M. Thomas, **Managing Member**

Susan N. Huttman, **Managing Member**

RPM ACADEMY LLC

I want to take this opportunity to reiterate, in cooperation with and as the result of an agreement with GWRRA, the University Program and ALL certified instructors (without exception) will continue to follow the program's established policies and procedures until the close of business on 12/31/2022.

The University will continue to provide administrative management of the program and would encourage any current University Instructor who would like to continue in their role in the new year to contact me.

We look forward to continuing to certify and recertify instructors, present Instructor Training (ITCP), and support all participants and their personal goals.

Time to “Fall” in love with riding

The temperatures are finally cooling off. Crisp mornings that lead to sunny and warm afternoons.

Layering is now the ideal plan before heading out. And even though we aren't in the Northeast with their beautiful colors, we still have our own Southern options.

Arkansas has always been a great choice to view some incredible color changes. Their change usually occurs in late October. But you can also visit Ouachita State Park around mid-November to see the best fall foliage on the oaks, maples, and other hardwoods.

Around the same time period in Oklahoma autumn foliage peaks around Halloween and stretches into early November. That's when they are ablaze with yellows, reds and oranges at such popular fall foliage hotspots as Talimena Scenic Drive, the Ouachita National Forest, and the Chickasaw National Recreational Area.

Not to be outdone, Texas has the Lost Maples State Natural Area. Usually around mid-November is the best time to see some brilliant colors. Be mindful that lots of folks travel there on the weekends. Plan ahead and make your reservations early.

Easily a day's ride to either of our Northern options, or a quick early morning ride to Lost Maples, now is the time to get in some riding time during these wonderful cooler temperatures and see some amazing views of what Mother Nature has to offer.

SHIRT AND HAT SALE

The Chapter has some hats and shirts available. Designs vary a little since they were ordered at different times, but most are a variant of the front and back shown in the picture. The back is the large logo while the front has the G2 designator on the left breast. Let me know if you're interested and I'll bring to a gathering or arrange some other so you can see them or take more detailed pictures.
